

Variprofile

The new VARIPROFILE is the perfect feathering propeller for sailing boats and yachts up to 75 hp. Thanks to innovative design and production methods we can offer VARIPROFILE as an exceptional value, yet conforming to the highest quality standards of all our propellers. The VARIPROFILE hub is interchangeable and always fits. It is designed especially for series yacht builders and the flexible construction facilitates ordering and stocking.

Please ask us for an individual offer to meet your needs!

- Excellent price/performance ratio
- Profiled blades for optimal thrust and quiet running under power
- Exceptional sailing characteristics because of the light and slim shape
- External pitch adjustment, separately for forward and reverse
- Robust construction with helical gearing.
- Interchangeable hub
- Simple installation
- Available in 2-blade and 3-blade version for yachts up to 75 hp
- Made out of hi-tensile NIBRAL-BRONZE (Ice-Class)
- CNC machining for highest precision
- May be used for shaft generators
